

CONSTRUCTION PROJECT MANAGEMENT is a Queensland-based company. Our business scope includes the provision of construction services, demolition and project management to the civil construction industry, specialising in road, bridge construction and building redevelopment works. We provide project management personnel on a contract basis and manage total projects as the Principal Contractor.

Our policy is to focus on achieving continual improvement and leave a positive environmental legacy on all project, client and stakeholder engagements.

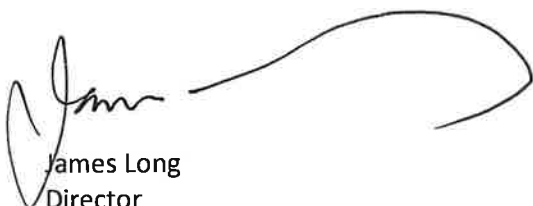

Commitment:

- Meet our environmental obligations in accordance with Environmental Acts and Legislation and relevant legal and other requirements.
- Comply with legislation protecting any site, place, structure or material of cultural heritage significance.
- Comply with the international standard *AS/NZS ISO 14001:2015 – Environmental Management Systems - Requirements with guidance for use*.
- Establish and maintain objectives and targets with the aim of reducing negative environmental impacts and achieving continual improvement.
- Embrace the use of sustainable resources and improved waste and energy reduction measures.
- Prevent pollution and reduce the release of emissions from our workplace.
- Ensure that environmental management principles are included in all planning activities.
- Act with due regard for the requirements and expectations of our clients, neighbours and community, stakeholders, insurers, and industry associations.
- Maintain the suitability and effectiveness of our environmental management systems

Strategies and Objectives:

- Minimise waste production and disposal.
- Minimise use and disposal of hazardous substances.
- Minimise industrial noise and emissions.
- Reduce the use of non-renewable resources and increase recycling.
- Reduce consumption of resources
- Understand and implement aspect identification and impact assessment practices, including emergency and rehabilitation measures.
- Ensure incidents are promptly investigated and causes are corrected to prevent reoccurrence.
- Provide information and training to our people on environmental issues and work procedures.
- Ensure our suppliers and subcontractors comply with relevant requirements.
- Monitor, inspect, measure and report the effectiveness of our environmental programs and objectives.

This statement is issued to indicate our commitment to our standards of service and minimising our environmental impact. The full support of our employees, suppliers and subcontractors is sought in meeting our commitment.
